Sommario	<p>My research focuses on the mentality of catholic entrepreneurs and managers in Italy between the 1930's and the 1950's. The main source of my study is the archive of an organization called Unione Cristiana Imprenditori Dirigenti [Christian Entrepreneurs and Managers Association], which was founded in Milan in 1945 with the pedagogic intent to foster higher moral standards and social responsibility in the milieu of catholic entrepreneurs, in the spirit of the Social Doctrine of the Church. This experience was set in the social and political context of the Italian post-war years, but it was also rooted in the debate that started during the 1930s - on the rise of a new catholic leadership in society.</p>
